OSHA Auditing: Federal Compliance Guide Construction: Checklist

Description:
OSHA Auditing – Federal Compliance Guide – Construction is used to assess compliance at construction sites with federal Occupational Safety and Health Administration (OSHA) regulations at 29 CFR 1926, as well as the agency's general recordkeeping requirements at 29 CFR 1904. This guide covers OSHA construction regulations applicable at the majority of construction sites throughout the United States, helping safety auditors identify all relevant regulatory requirements and meet these challenges successfully.

It is written primarily for Corporate Audit, Site Safety Managers, Project Managers and EHS directors.

Benefits
- Enables a company to be proactive in avoiding health and safety violations, thus reducing costs associated with health and safety problems and the need to hire outside consultants
- Is a comprehensive one-stop information source on significant health and safety issues, responsibilities, good management practices, and regulations associated with ongoing construction activities
- Includes detailed procedural checklists that have been field-tested by STC's own auditors. Provides a step-by-step approach for novice auditors in the Rulebooks
- Concise directives for expert auditors in the Scoresheets
