Treatment Planning for Children with Autism Spectrum Disorders. An Individualized, Problem-Solving Approach

Description: A new way of thinking about treatment planning to support children with autism spectrum disorders

Rooted in evidence-based practices, Treatment Planning for Children with Autism Spectrum Disorders provides a seven-step dynamic treatment planning process. The book shows how a variety of current interventions and treatments can be incorporated into this process and includes applications of different approaches for tackling different problems. The nine illustrative case vignettes cover a wide variety of ages, developmental challenges, learning and social profiles, and school and family circumstances.

Contents:
