Social, Methods, and Microeconomics. Contributions to Doing Economics Better. Economics and Sociology Thematic Issue

Description: This book consists of ten essays which speak to doing economics better. This means doing a different kind of economics than that pursued by the mainstream—an economics in which the social is not a peripheral add-on, but infused at every level from its ontological–methodological foundations, its theoretical core, to its applied research and policy recommendations. It includes essays on Polanyi's concept of social embedded economy, social ecological economics, holy debts and the creation of money, norms, methodology, and applied economics.

Contents: Chapter 1. Lineages of Embeddedness: On the Antecedents and Successors of a Polanyian Concept (Gareth Dale).
Chapter 4. Human Capital: Theoretical and Empirical Insights (Germana Bottone and Vania Sena).
Chapter 5. On Norms: A Typology with Discussion (Matthew Interis).
Chapter 7. Emily Greene Balch, Political Economist (Robert W. Dimand).
Chapter 8. Who Do Heterodox Economists Think They Are? (Andrew Mearman).
Chapter 9. Microeconomics After Keynes: Post Keynesian Economics and Public Policy (Steven Pressman).
Chapter 10. Morgenstern’s Forgotten Contribution: A Stab to the Heart of Modern Economics (Philipp Bagus).
Index.
