
Description: The ultimate resource for media content providers and purveyors, wherever they are based

"We deal with libel and privacy cases in countries across the world, and we need to have a good understanding of the basic legal principles that apply in each of them. Charles Glasser’s book provides exactly that and this new edition, covering more countries in the Middle East and the Americas, is as useful and indispensable as the previous two."

Peter Noorlander, Chief Executive, Media Legal Defence Initiative

"The Third Edition of Charles Glasser’s Handbook can be variously described as: authoritative, practical, accessible, user–friendly, indispensable and, most of all, welcome. Globalization of media law is as much a fact as the limitless exposure of online content to liability anywhere on the planet. The updated and expanded (29 chapters, up from 23) International Libel and Privacy Handbook uniquely addresses these new problems and represents the multinational legal authority of choice for today's journalists, publishers, webmasters, and lawyers."

Richard N. Winfield, International Senior Lawyers Project, Of Counsel, Clifford Chance U.S. LLP

"Charles Glasser has pulled together a concise and pragmatic guide to media law throughout the world. Well organized and authoritative, it is a sobering reminder that speech that is fully protected in some places can put your client in jail in others. But this is also an empowering book, demonstrating that it is both possible and essential to promote robust but ethical journalism even in countries that are still discovering the salutary effects of a free press."

Jane E. Kirtley, Silha Professor of Media Ethics and Law, University of Minnesota

"For many years, attorneys have awaited publication of a single volume summarizing libel and privacy law throughout the world. At long last, we can now compare on a nation–by–nation basis how countries in the Americas, Asia, and Europe deal with libel and privacy issues and how that treatment differs from the United States. This book offers a sophisticated and reader–friendly response to the core questions that any practitioner frequently must consider."

Floyd Abrams, Cahill Gordon & Reindel (from a review of the first edition)

"In the Internet age, we increasingly are required to know media laws around the world. [This] is an indispensable addition to our law library."

Lucy Dalglish, Executive Director of the Reporters Committee for Freedom of the Press (from a review of the first edition)
