
Description:

Autonomic Nervous System provides an introduction to the latest science and detailed chapters on advances in the clinical diagnosis and treatment of autonomic system disorders.

The autonomic nervous system controls all involuntary actions within the human nervous system. Core body functions regulated by the autonomic system include breathing, heartbeat, blood pressure, body temperature, perspiration, and bowel, bladder and sexual function. Our understanding of the neurotransmitters associated with the autonomic nervous system has expanded over the past 15 years associated with current research efforts and are now impacting the diagnosis and treatment of autonomic nervous system disorders by clinical neurologists. This volume is a valuable companion for neuroscience and clinical neurology researchers and practitioners.

- A volume in the Handbook of Clinical Neurology series, which has an unparalleled reputation as the world's most comprehensive source of information in neurology- International list of contributors, including the leading workers in the field- Describes the advances that have occurred in clinical neurology and the neurosciences and their impact on the understanding of neurological disorders and on patient care

Contents:

1. The autonomic nervous system; what do we miss?
2. Differential Responses of Components of the Autonomic Nervous System
3. Cotransmission in the autonomic nervous system
4. Sensitization of endocrine organs to anterior pituitary hormones by the autonomic nervous system
5. Central Control of Autonomic Function and Involvement in Neurodegenerative Disorders
6. Interaction between cognition, emotion and the autonomic nervous system
7. Interception and ANS Reflexes Thermoregulation
8. Regulation of blood pressure by the arterial baroreflex and autonomic nervous system
9. Cooling, pain and other feelings from the body in relation to the autonomic nervous system
10. The Neurological Organization of Micturition
11. The clinical importance of the anti-inflammatory vago-vagal reflex
12. The Role of the Autonomic Nervous System in Cardiac Arrhythmias
13. Exercise and the Autonomic Nervous System
14. Autonomic control of bone formation: its clinical relevance
15. The circadian system and the balance of the autonomic nervous system
16. Autonomic Nervous System Control of the Cerebral Circulation
17. Autonomic Regulation of Kidney Function
18. Autonomic Neural Control of the Airways
19. Multiple system atrophy
20. Pure Autonomic Failure
21. Autonomic Dysfunction in Parkinson Disease
22. Diabetic Autonomic Neuropathy
23. Hypoglycemia-Associated Autonomic Failure in Diabetes
24. Sensory-autonomic interactions in health and disease
25. Autoimmune Autonomic Failure
26. The central sympathetic nervous system in hypertension
27. Pathology of emesis: its autonomic basis
28. Sympathetic Microneurography
29. Sympathetic Neuroimaging
30. Skin biopsies in the assessment of the autonomic nervous system
31. Heart Rate Variability
32. Chronic Activation of the Baroreflex and the Promise for Hypertension Therapy

Ordering:

Order Online - http://www.researchandmarkets.com/reports/2634325/

Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

| Web Address:  | http://www.researchandmarkets.com/reports/2634325/          |
| Office Code:  | SC                                                            |

Product Format
Please select the product format and quantity you require:

| Quantity | Hard Copy (Hard Back): | USD 263 + USD 31 Shipping/Handling |

* Shipping/Handling is only charged once per order.
* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

| Title: | Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐ |
| First Name: | __________________________ |
| Last Name: | __________________________ |
| Email Address: * | __________________________ |
| Job Title: | __________________________ |
| Organisation: | __________________________ |
| Address: | __________________________ |
| City: | __________________________ |
| Postal / Zip Code: | __________________________ |
| Country: | __________________________ |
| Phone Number: | __________________________ |
| Fax Number: | __________________________ |

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.
