Cervarix (Prophylactic Human PapillomaVirus Vaccines) - Forecast and Market Analysis to 2022

Description: Cervarix (Prophylactic Human PapillomaVirus Vaccines) - Forecast and Market Analysis to 2022

Summary

The first prophylactic vaccine for immunization against human papillomavirus (HPV) became available in 2006. The global HPV vaccines market is now well established, yet vaccine coverage rates amongst the traditional target population of adolescent girls remain persistently low. Initially HPV vaccines were developed and marketed solely to protect against cervical cancer. In recent years the role of HPV in other cancers has been increasingly recognized which has facilitated a shift towards vaccinating a wider population, most significant has been the inclusion of males in routine vaccine recommendations in some countries. The current HPV vaccines market is dominated by one major player, Merck's Gardasil, with GlaxoSmithKline's (GSK's) HPV vaccine Cervarix providing the only competition. The introduction of Merck's nine-valent vaccine (V503) is set to change the future landscape of the HPV vaccines sector.

Cervarix is manufactured and marketed by GSK, and consists of recombinant VLPs of the L1 capsid proteins from HPV strains 16 and 18, produced using a Baculovirus expression system. VLPs are combined with GSK's proprietary AS04 adjuvant, adsorbed on aluminum hydroxide. Cervarix is administered as a three-dose schedule with the second and third doses at one and six months following the first dose, respectively.

Scope

- Overview of HPV, including epidemiology, etiology, symptoms, diagnosis, pathology and treatment guidelines as well as an overview on the competitive landscape.
- Detailed information on Cervarix including product description, safety and efficacy profiles as well as a SWOT analysis.
- Sales forecast for Cervarix for the top nine countries from 2012 to 2022.
- Sales information covered for the US, France, Germany, Italy, Spain, the UK, Japan, Canada and Australia

Reasons to buy

- Understand and capitalize by identifying products that are most likely to ensure a robust return
- Stay ahead of the competition by understanding the changing competitive landscape for HPV
- Effectively plan your M&A and partnership strategies by identifying drugs with the most promising sales potential
- Make more informed business decisions from insightful and in-depth analysis of Cervarix performance
- Obtain sales forecast for Cervarix from 2012-2022 in top nine countries (the US, France, Germany, Italy, Spain, the UK, Japan, Canada and Australia)

Contents:

1 Table of Contents
1.1 List of Tables
2 Introduction
2.1 Catalyst
2.2 Related Reports
2.3 Upcoming Related Reports
3 Disease Overview
3.1 Etiology and Pathophysiology
3.1.1 Etiology
3.1.2 Pathophysiology
3.2 Symptoms
4 Vaccination Recommendations and Coverage Rates
4.1 Vaccination Recommendations Overview
5 Competitive Assessment
5.1 Overview
5.2 Strategic Competitor Assessment
6 Cervarix
6.1 Overview
6.2 Efficacy
6.3 Safety
6.4 SWOT Analysis
6.5 Forecast
7 Appendix
7.1 Bibliography
7.2 Abbreviations
7.3 Methodology
7.4 Forecasting Methodology
7.4.1 Vaccine Coverage
7.4.2 Vaccine Approval versus Routine Schedule Inclusion
7.4.3 General Pricing Assumptions
7.4.4 Individual Drug Assumptions
7.5 Physicians and Specialists Included in this Study
7.6 About the Author(s)
7.6.1 Author(s)
7.6.2 Therapy Area Director
7.6.3 Global Head of Healthcare
7.7 About Us
7.8 Disclaimer
