V503 (Prophylactic Human Papillomavirus Vaccines) - Forecast and Market Analysis to 2022

Description: V503 (Prophylactic Human Papillomavirus Vaccines) - Forecast and Market Analysis to 2022

Summary

The first prophylactic vaccine for immunization against human papillomavirus (HPV) became available in 2006. The global HPV vaccines market is now well established, yet vaccine coverage rates amongst the traditional target population of adolescent girls remain persistently low. Initially HPV vaccines were developed and marketed solely to protect against cervical cancer. In recent years the role of HPV in other cancers has been increasingly recognized which has facilitated a shift towards vaccinating a wider population, most significant has been the inclusion of males in routine vaccine recommendations in some countries. The current HPV vaccines market is dominated by one major player, Merck's Gardasil, with GlaxoSmithKline's (GSK's) HPV vaccine Cervarix providing the only competition. The introduction of Merck's nine-valent vaccine (V503) is set to change the future landscape of the HPV vaccines sector.

Merck is developing V503, a nine-valent HPV vaccine; like Gardasil, this vaccine is being developed in partnership with CSL, from which Merck is licensing VLP technology. Both V503 and Merck's current vaccine Gardasil have a similar mechanism of action, consisting of VLPs combined with aluminum salt adjuvant, delivered as an IM injection over a three-dose course. Merck has recently registered a Phase III trial to assess the immunogenicity of V503 given over a two-dose course (Merck, NCT01984697).

Scope

- Overview of HPV, including epidemiology, etiology, symptoms, diagnosis, pathology and treatment guidelines as well as an overview on the competitive landscape.
- Detailed information on V503 including product description, safety and efficacy profiles as well as a SWOT analysis.
- Sales forecast for V503 for the top eight countries from 2012 to 2022.
- Sales information covered for the US, France, Germany, Italy, Spain, the UK, Canada and Australia

Reasons to buy

- Understand and capitalize by identifying products that are most likely to ensure a robust return
- Stay ahead of the competition by understanding the changing competitive landscape for HPV
- Effectively plan your M&A and partnership strategies by identifying drugs with the most promising sales potential
- Make more informed business decisions from insightful and in-depth analysis of V503 performance
- Obtain sales forecast for V503 from 2012-2022 in top eight countries (the US, France, Germany, Italy, Spain, the UK, Canada and Australia)

Ordering:
Order Online - [http://www.researchandmarkets.com/reports/2881902/](http://www.researchandmarkets.com/reports/2881902/)
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form

To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information

Please verify that the product information is correct and select the format(s) you require.

| Product Name: | V503 (Prophylactic Human Papillomavirus Vaccines) - Forecast and Market Analysis to 2022 |
| Web Address: | http://www.researchandmarkets.com/reports/2881902/ |
| Office Code: | SC |

Product Formats

Please select the product formats and quantity you require:

- Electronic (PDF) - Single User: USD 3495
- Electronic (PDF) - Enterprisewide: USD 10485
- Electronic (PDF) - Site License: USD 6990

* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information

Please enter all the information below in BLOCK CAPITALS

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.
