Modern Physics. Edition No. 2

Description: The second edition of Modern Physics for Scientists and Engineers is intended for a first course in modern physics. Beginning with a brief and focused account of the historical events leading to the formulation of modern quantum theory, later chapters delve into the underlying physics. Streamlined content, chapters on semiconductors, Dirac equation and quantum field theory, as well as a robust pedagogy and ancillary package, including an accompanying website with computer applets, assist students in learning the essential material. The applets provide a realistic description of the energy levels and wave functions of electrons in atoms and crystals. The Hartree-Fock and ABINIT applets are valuable tools for studying the properties of atoms and semiconductors.

- Develops modern quantum mechanical ideas systematically and uses these ideas consistently throughout the book.
- Carefully considers fundamental subjects such as transition probabilities, crystal structure, reciprocal lattices, and Bloch theorem which are fundamental to any treatment of lasers and semiconductor devices.
- Clarifies each important concept through the use of a simple example and often an illustration.
- Features expanded exercises and problems at the end of each chapter.
- Offers multiple appendices to provide quick-reference for students.

Contents:
1. The Wave-Particle Duality
2. The Schrodinger Wave Equation
3. Operators and Waves
4. Hydrogen Atom
5. Many-Electron Atoms
6. The Emergence of Masers and Lasers
7. Statistical Physics
8. Electronic Structure of Solids
9. Charge Carriers in Semiconductors
10. Semiconductor Lasers
11. Relativity I
12. Relativity II
13. Particles Physics
14. Nuclear Physics
Appendix A: Natural Constants and Conversion Constants
Appendix B: Table of Atomic Masses
Appendix C: Solution of the Oscillator Equation
Appendix D: The Average Value of the Momentum
Appendix E: The Hartree-Fock Applet
Appendix F: Integrals That Arise in Statistical Physics

Ordering:
Order Online - http://www.researchandmarkets.com/reports/2936246/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Modern Physics. Edition No. 2
Web Address: http://www.researchandmarkets.com/reports/2936246/
Office Code: SC

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
</tr>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.
