Principles of Stem Cell Biology and Cancer. Future Applications and Therapeutics

Description: Principles of Stem Cell Biology and Cancer: Future Applications and Therapeutics Tarik Regad, The John van Geest Cancer Research Centre, Nottingham Trent University, UK, Thomas J. Sayers, Centre for Cancer Research, National Cancer Institute, Frederick, USA and Robert Rees The John van Geest Cancer Research Centre, Nottingham Trent University, UK The field of cancer stem cells is expanding rapidly, with many groups focusing on isolating and identifying cancer stem cell populations. Although some progress has been made developing efficient cancer therapies, targeting cancer stem cells remains one of the important challenges facing the growing stem cell research community. Principles of Stem Cell Biology and Cancer brings together original contributions from international experts in the field to present the very latest information linking stem cell biology and cancer. Divided into two parts, the book begins with a detailed introduction to stem cell biology with a focus on the characterization of these cells, progress that has been made in their identification, as well as future therapeutic applications of stem cells. The second part focuses on cancer stem cells and their role in cancer development, progression and chemo–resistance. This section of the book includes an overview of recent progress concerning therapies targeting cancer stem cells. Features: An authoritative introduction to the link between stem cell biology and cancer. Includes contributions from leading international experts in the field. Well–illustrated with full colour figures throughout. This book will prove an invaluable resource for basic and applied researchers and clinicians working on the development of new cancer treatments and therapies, providing a timely publication of high quality reviews outlining the current progress and exciting future possibilities for stem cell research.

Contents: List of Contributors vii

Preface xiii

Part I Stem Cells 1

1 Isolation and Characterization of Human Embryonic Stem Cells and Future Applications in Tissue Engineering Therapies 3 Christian Unger, James Hackland, David Preskey and Harry Moore

2 Epigenetics, Stem Cell Pluripotency and Differentiation 27 Maria J. Barrero

3 Stem Cell Niche and Microenvironment 45 Marcio Alvarez–Silva

4 Haematopoietic Stem Cells in Therapy 65 Jos Domen and Jignesh Dalal

5 Isolation and Identification of Neural Stem/Progenitor Cells 85 Loic P. Deleyrolle and Brent A. Reynolds

Part II Cancer Stem Cells 101

6 The Role of Epithelial – Mesenchymal Transition in Cancer Metastasis 103 Paul C. McDonald and Shoukat Dedhar

7 Regulation of Breast Cancer Stem Cells by Mesenchymal Stem Cells in the Metastatic Niche 123 Fayaz Malik, Hasan Korkaya, Shawn G. Clouthier and Max S. Wicha

8 Isolation and Identification of Neural Cancer Stem/Progenitor Cells 145 David Bakhshinyan, Maleeha Qazi, Neha Garg, Chitra Venugopal,

9 Colon Stem Cells in Colorectal Cancer 169
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit

Order Information
Please verify that the product information is correct.

Product Name: Principles of Stem Cell Biology and Cancer. Future Applications and Therapeutics
Web Address: http://www.researchandmarkets.com/reports/3089675/
Office Code: SC

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): [ ] USD 122 + USD 31 Shipping/Handling

* Shipping/Handling is only charged once per order.
* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.

If you have a Marketing Code please enter it below:
